

One place, Two conferences covering hot science trends. **NANOTECH Tunisia 2014** (Nanoscience and Nanotechnology International Conference) and **MEET Tunisia 2014** (Materials for Energy and Environment International Conference) conferences will take place in parallel, as well as a vast exhibition, one-to-one meetings and an industrial forum.

This event will gather the global nanotechnology and Materials for Energy and Environment communities, including **researchers, industrials, policymakers and investors**. **Internationally renowned speakers** will offer the attendees exceptional opportunities. The latest trends and discoveries in Nanoscience and Nanotechnology as well as in the area of Materials for Energy and Environment from some of the world's leading players in the field will be discussed.

Conferences Scopes

- Advanced Nanomaterials
- Nanoscale Electronics
- Nanotech in Life Sciences /Medicine
- Nanotech for Energy & Environment
- Nanomaterials Fabrication, Characterization & Tools
- Nanotechnology safety
- Nano Application
- Materials Processing and properties
- Materials for solar cells/ Photovoltaic
- Wind energy, Nuclear, BioEnergy, etc
- Hydrogen Energy and Fuel Cell Materials
- Photo Catalytic Materials
- Solid-state Lighting Materials
- Batteries and Super Energy-Storage Materials
- Sensors and Microsystems
- New Energy-Storage Materials
- Environment materials
- Renewable Energy Conversion Materials
- Ecological Renewable Materials
- Simulations and modelling
- Energy conversion, storage and efficiency
- Water and waste water treatment

Conference Papers

Selected conference papers will be published as journal papers in one of our International Journal partners (**with impact factor**)

- **International Journal of Nanotechnology**
- **Central European Journal of Physics**
- **Journal of Nano Research**

Conference papers will be published online in the conference Proceedings

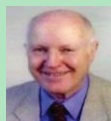

Keynote Speakers

Prof. Claude Tannoudji
Nobel Prize Physics
Collège de France **France**

Prof. Jean-Pierre Joly
Direcor National Institute of Solar Energy (INES) **France**

Prof. Erich Sackmann
Technische Universitat Munchen **Germany**

Prof. Michael Stöcker Chief Scientist - SINTEF Materials and Chemistry **Norway**

Prof. Vasco Teixeira University of Minho **Portugal**

Prof. Kenneth A. Dawson
University College Dublin **Ireland**

Prof. Axel Lorke University of Duisburg-Essen-**Germany**

Prof. Didier Letourneur
INSERM- University Paris Diderot and Paris Nord **France**

Prof. Khaled Karrai Chief Technical Officer/ R&D head of AttoCube Systems AG **Germany**

Prof. Joydeep Dutta Chair in Nanotechnology Water Research Center Sultan Qaboos University **Oman**

Prof. Adnen Mlayah Paul Sabatier University / CNRS Toulouse **France**

Dr. Jorge M. Garcia Director of the Instituto de Microelectronica de Madrid-CSIC **Spain**

Conference Venue

Le Royal Hammamet Hotel - Tunisia

Abstract submission deadline
February 15th, 2014
Early Bird Registration Deadline
March 25th, 2013
